“ I never forgot you Matt. I looked for you and could never find you on social media. I typed your name in the search engine to try to locate you and I did this periodically. I woke up thinking about you and I had a dream about you so I typed your name in again and was in disbelief to see your obituary. My childhood friend. I will never forget you. I will never forget my first day of school, you say in front of me in homeroom and how you used to make beats on the desk. I always thought about you and wondered how you were doing. You meant a lot to me because you were so sweet . I am so so sad for your family. I don't know what happens but it is very tragic that you had to go so young Matt, and your babies. I am sad I never go to reconnect with you. I am praying for your children Matt, and your family. I never forgot you, and I will always miss you.
